Professional Summary

Passionate about creating impactful solutions for real-world challenges, demonstrated through projects in campus management, wedding planning, and women safety. Enthusiastic about Artificial Intelligence and Machine Learning, with a focus on building user-centric and socially beneficial applications.

Education

Bachelor of Engineering (B.E) in Computer Science

Chandigarh College of Engineering and Technology, Panjab University,
Chandigarh

CGPA: 9.76/10 (upto 5th semester)

Technical Skills

Programming Languages: C++, C, Python, Java

Web Technologies: HTML, CSS, JavaScript, React, Flask

Databases: MySQL, SQLite

Other: Machine Learning, Artificial Intelligence

Projects

Campus Management System

Developed a web-based platform to efficiently manage campus resources and events, including event scheduling, room bookings, and attendance tracking. Tech stack: React (frontend), Flask (backend), MySQL (database).

Wedding Planning Website

Created a modern website for clients to search, book, and manage wedding venues and related services. Features included live availability, guest list management, and vendor coordination.

Women Safety Application

Designed and implemented an application for safe route prediction and real-time safety support for women. Integrated map APIs to suggest safer routes, added emergency alert features, and provided live location sharing. Technologies used: Flask, HTML/CSS, JavaScript, Google Maps API.

AI-Based Quiz Platform

Designed using the API and flask and create an automatic suggestion system based on you previous scorecard and facility of quiz on any topic with choosing difficulty level based on your interest and scorecard delivered on your email .

ARGO

Implemented end to end pipeline of Rag with an langchain , chroma db and postgresql with the react based dashboard .

Achievements & Interests

President of Student Council, CCET.
