PROFESSIONAL SUMMARY

Computer Science Engineering student with hands-on experience in Full-Stack Web Development, REST API development, Database Management, Machine Learning, and Cloud-Native technologies. Experienced in building responsive web applications using HTML, CSS, JavaScript, React, Flask, SQLAlchemy, and SQLite. Strong understanding of component-based architecture, RESTful services, version control, responsive web design, and software development life cycle. Passionate about creating intuitive user experiences and scalable digital solutions while continuously learning modern technologies including Docker, Cloud Computing, Kubernetes, and AI/ML.

TECHNICAL SKILLS

Front-End Development

- HTML5
- CSS3
- Responsive Web Design
- JavaScript (ES6)
- React.js
- Bootstrap
- AJAX
- DOM Manipulation
- UI/UX Design Principles

Back-End Development

- Python
- Flask
- REST API Development
- JWT Authentication
- Server-side Application Development

Database Technologies

- SQLite
- SQLAlchemy ORM
- MySQL
- Relational Database Concepts
- Database Design

Development Tools

- Git
- GitHub
- Postman
- Pytest
- Docker
- VS Code

Programming Languages

- Python
- JavaScript
- C++
- C
- SQL
- Java

Cloud & DevOps

- Docker
- Linux
- Ubuntu
- Containerization Fundamentals
- Kubernetes Fundamentals
- AWS Fundamentals
- Azure Fundamentals

Machine Learning & Data Science

- NumPy
- Pandas
- Matplotlib
- Scikit-learn
- Machine Learning Fundamentals
- Predictive Analytics

Design Tools

- Canva
- Figma

ACADEMIC PROJECTS

Campus ERP REST API System

Technologies: Flask, SQLAlchemy, SQLite, REST APIs, JWT, Postman

- Designed and developed RESTful APIs for student and department management.
- Implemented CRUD operations using Flask and SQLAlchemy ORM.
- Developed secure authentication and authorization mechanisms.
- Performed API testing using Postman.
- Implemented database migrations and schema management.
- Followed modular architecture and clean coding practices.

SafeRoute – Women Safety Platform

Technologies: HTML, CSS, JavaScript, Flask, Maps API

- Developed a safety-focused web platform for women.
- Designed responsive interfaces for seamless user experience.
- Integrated location-based services and route visualization.
- Planned intelligent route prediction based on safety factors.
- Applied user-centric design principles for accessibility and usability.

Face Recognition Attendance System

Technologies: Python, OpenCV, SQLite

- Built an attendance management system using facial recognition.
- Stored user information securely in a database.
- Implemented image matching and attendance tracking.
- Integrated database operations with real-time recognition workflows.

Smart Campus Resource Optimization System

Technologies: HTML, CSS, JavaScript

- Designed a multi-page campus management solution.
- Created responsive interfaces for resource booking and management.
- Focused on user experience and accessibility.
- Developed modules for event management and resource utilization.

Online Quiz System with Machine Learning

Technologies: Flask, Python, SQLite, Machine Learning

- Developed a web-based quiz platform.
- Integrated machine learning for question difficulty prediction.
- Implemented database-driven quiz management.

- Added analytics and performance tracking capabilities.

SOFTWARE ENGINEERING KNOWLEDGE

- Object-Oriented Programming
- MVC Architecture
- RESTful Web Services
- HTTP Request/Response Lifecycle
- API Design Principles
- Responsive Web Development
- Component-Based Development
- Version Control Systems
- Database Normalization
- Unit Testing Fundamentals
- Agile Development Concepts
- Software Development Life Cycle

RELEVANT COURSEWORK

- Data Structures & Algorithms
- Database Management Systems
- Operating Systems
- Computer Networks
- Software Engineering
- Object-Oriented Programming
- Machine Learning
- Artificial Intelligence
- Cloud Computing Fundamentals

ACHIEVEMENTS

- Developed multiple full-stack web applications using modern web technologies.
- Built production-style REST APIs using Flask and SQLAlchemy.
- Worked on machine learning and computer vision projects.
- Participated in technical project development and research activities.
- Continuously learning cloud-native technologies, Docker, Kubernetes, and DevOps practices.

STRENGTHS

- Problem Solving
- Quick Learning Ability
- Team Collaboration
- Adaptability
- Analytical Thinking
- User-Centric Design Approach
- Continuous Learning Mindset

EDUCATION

Bachelor of Technology (B.E) – Computer Science Engineering

Expected Graduation: 2027

CGPA: 9.76

College/University: Chandigarh College of Engineering and Technology (Panjab University)
